

## WATER VAPOR EXISTS ON MARS

Prof. Campbell of Lick Observatory Issues Strongest Statement Ever Made.

### PHOTOGRAPHS PROOF OF IT.

If in Sufficient Quantity Will be Evidence Tending to Show Conditions Favorable to Life.

San Francisco, Sept. 8.—According to a statement made by Prof. W. W. Campbell, director of Lick observatory, the recent astronomical expedition which has just returned from Mount Whitney brought back proof that water vapor exists on Mars. The scientists have in their possession, as the result of the pictures which they took from the summit of the mountains, definite proof that the planet Mars is capable of supporting sentient beings. Prof. Campbell made the following statement:

"We are now in a position to issue the strongest statement that has ever been given out as to the existence of water vapor on Mars. It is found that the water vapor is sufficient to be detected under the most favorable conditions. It will be evidence along the line of establishing the conditions on Mars are favorable to life. It will

## Health and Beauty Notes

BY MRS. MAE MARTIN.

Molly O.: Ink stained fingers can be bleached with a moistened match end.

N. R.: You are right. Good looks do not rest altogether upon classic features. A plain girl who takes care of her complexion, hair, teeth and eyes often wins the race for a husband and leaves behind the natural beauty who neglects her appearance. Remember that you have but one face. The proper care of the hair requires a shampoo every two weeks and the application of a good hair tonic or oil twice a week. (1) Plain castor oil gives a delightful shampoo and leaves the hair soft and fluffy. Simply dissolve a teaspoonful of castor oil in a cup of hot water; pour on the head a little at a time. It lathers abundantly. (2) You can make a good hair tonic at home if you will get from your druggist an ounce of quinine and a half-pint of alcohol. Dissolve the quinine in the alcohol and add a half-pint of cold water. This tonic will keep the scalp free from dandruff, stop falling hair, itching and irritation, keep the hair and scalp in a healthy condition and promote growth of hair.

E. R.: For tan, freckles, chapped face, etc., apply almond complexion cream jelly and let remain for an hour or two. This cream jelly is used either as face cream or massage cream, and can be made at home at small cost. It contains no oils or fats that will cause hair to grow. Get 1 ounce of almond oil and 1 ounce of glycerine from your druggist and put into a half-pint of cold water; stir well and let stand. If too thick, stir in more water. If used for massaging, almond cream jelly clears the skin of blackheads, large pores and certain types of pimples.

Lillie S.: Standing with the weight resting on one foot is likely to cause one hip to grow larger than the other. You are twenty pounds above average weight for a person of your stature. To get rid of your superfluous flesh, dissolve 4 ounces of paraffin in a pint of hot water and take a tablespoonful three times a day just before meals. This will reduce weight in three weeks with the aid of paraffin and was much benefited in her general health.

Alex. J.: (1) Consult your dentist. (2) Every article mentioned in my replies is sold in first class drug stores. If you dealer hasn't got it, he can easily get it for you from his wholesaler.

B. G.: The lustreous and sparkling eyes you envy are probably produced with the aid of an eye tonic. You can

not be proof, however, that life exists on Mars.

The negatives made by the astronomer will be developed at once.

### NORTHCLIFFE PREDICTS WAR WITH GERMANY.

Winnipeg, Sept. 7.—Lord Northcliffe, owner of the London Times, in an interview here today, predicted that war between Germany and Great Britain. He said in the Krupp gun works alone, 100,000 men are working night and day, and on Sundays, preparing for war. He said:

"I would make the suggestion, with all respect to the Canadians who are investing their money and labor in constructing railroads and building grain elevators, that they keep an eye on European affairs and begin to figure out why all the shipbuilding yards in Germany are busy constructing rapid cruisers and first class battleships, and why it is that Krupp's works have increased their hands to over 100,000 men, nearly the population of Winnipeg."

"They will fight or threaten again, when they think it will pay. I am sure they will. They will fight Great Britain in the near future, and some have mentioned the year 1912."

make an eye tonic that will rest your tired eyes and keep them bright and clear by dissolving 1 ounce of crystals in a pint of water. One or two drops in each eye is a treatment. It will not smart or burn. This eye tonic strengthens the sight and aids those who wear glasses. Use it whenever your eyes are dull, red or inflamed.

Emma O.: Used to excess, powder is vulgar and makes the user appear common; properly applied, it is a necessary article of the toilet and should have a place on every lady's dressing table, but because it is so difficult to put on properly, powder is losing popularity and being succeeded by liquid complexion beautifiers. These are rather expensive when bought ready manufactured. You can make an excellent face lotion at home at a much lower cost. Just get from your druggist 4 ounces of apricot, put it in a half-pint of hot water and add 2 teaspoonfuls of glycerine. Rub lightly after applying to face, forehead and hands. Apricot tends to remove some kinds of pimples, tan, freckles, cold sores, etc. It makes salicylic and oily skin look fresh and youthful. It will not rub off like common powder and your complexion will not need retouching from morning to night.

A. T.: An excellent treatment and one that usually cures eczema, salt rheum and similar skin diseases is made by mixing 4 ounces of lard with 4 tablespoonfuls of alcohol and adding 4 ounces of water. Shake the bottle, pour a small quantity upon the affected surface and allow to dry, repeating treatment until eruption disappears and skin is restored to a healthy condition.

J. R.: I know many formulas for system tonics, but of the many I have used, I feel better rested from garden tonic than any other. It purifies the blood, makes the liver more active, restores lost appetite and tones up the system for winter. It is depended upon by many to relieve dullness, languidness, sallow complexion, liver troubles, pimples and other eruptions of the skin. If you need strengthening and building up, get from your druggist 1 ounce of garden tonic, mix it with one-half cup sugar, then dissolve in one-half pint of alcohol, and add enough boiling water to make a full quart of tonic. Take 1 tablespoonful five minutes before each meal and before retiring.

Beatrice: When your hands are shriveled from washing clothes or dishes, wipe dry and rinse in weak lemon vinegar.

## SECY BALLINGER IS READY FOR WAR

Fully Prepared to Defend the Interior Department's Conservation Policy.

### WON'T DISCUSS SITUATION.

President Lets it be Known Will be No Decision on Question For Some Time.

Beverly, Mass., Sept. 7.—"So far as I am concerned, let the war go on." This was the reply of Secy. Ballinger today when pressed for an expression of opinion as to how long he thought the controversy in Washington regarding the conservation policy of the interior department would continue.

Mr. Ballinger passed the entire day in Boston, while the president was attending the Yale celebration at the Brooklyn Country club, but he came to Beverly tonight and had a second interview with the president.

Mr. Ballinger positively declined to discuss the situation in any way, but President Taft let it be known that no decision on the matter at issue could be expected for some time. He intimated that there would be no statement from him as to any feature of the controversy. It had been supposed that a settlement might be announced before the president leaves for the west next Wednesday, but Mr. Taft decided this idea today by saying that he did not know when he would be in a position either to talk or to act.

Secy. Ballinger said that he proposed to be in Washington some time on Thursday, leaving the impression that he would see the president again tomorrow.

President Taft became plain "Bill" Taft again to many of his old Yale classmates and companions in college. During the day he played in a golf foursome with three other friends and schoolmates as the guest of honor at an outdoor luncheon on the estate of Sherman L. Whipple, adjoining the Country club, not mixed up in a veritable football rush during the after-luncheon reception, and sat through the first inning of a baseball game played by former stars of Yale's best teams.

Rev. Charles F. Carter, 78, who pitched a no-hit, no-run game against Harvard in the '70s, pitched today for one of the picked nines and was hampered all over the green sward. Just to show his old-time form as a batsman, however, Mr. C. F. made a hit every time he faced up to opposing pitcher, a young man, but recently out of college.

The Yale club of Boston had been waiting to hold the field day since early in July, when the president tentatively accepted an invitation to be present.

## BLOOD WAS THIN AFTER AN ATTACK OF THE GRIP

Tonic Treatment Is Necessary After the Acute Stage of the Disease Is Past Before the Health Can Be Fully Restored.

A single attack of the grip may mean a lifetime of misery if proper precautions are not taken to restore the blood and drive out the lingering poisons that cause the so-called "after-effects" of the disease.

The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption.

Mrs. John Jorissen, of North St. Paul, Minn., advises sufferers from the after-effects of the grip to build up their blood with Dr. Williams' Pink Pills. In Dr. Williams' Pink Pills she gave her lasting benefit.

"Some years ago I had a hard attack of the grip and I was in poor health for a long time. My blood was thin and poor and I was as white as a sheet. My appetite was entirely gone and my stomach was out of order. I had severe dizzy spells in the morning, which so upset me that I could only drag myself around for the rest of the day. I could not get much rest and would be as tired in the morning as when I went to bed. I was not able to walk up a flight of stairs without dropping from exhaustion."

"I was treated by two doctors without gaining any relief. They said I was all run down and was suffering from a lack of blood. I found no relief until I began the use of Dr. Williams' Pink Pills. In a few weeks I could see great improvement and took the pills until entirely cured. I have not been sick since and shall never fail to recommend Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills have also cured such diseases as anæmia, rheumatism, nervous debility, neuralgia and St. Vitus' dance. They are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

E. Lefebvre, the French aviator, was killed from a fall from his aeroplane, with which he was practicing, over the aviation field here this afternoon.

Lefebvre sustained mortal injuries when the machine crashed to the ground.

M. Lefebvre belonged to the new school of French aviators and came to the United States a few months ago. He was an engineer of considerable note and became interested in aviation through studying it as a science.

Several months ago M. Lefebvre purchased a Wright machine and started at once making a series of successful flights over the Hague, after his demonstrations in Holland, he dropped out of sight for a while, but came back into the arena of Rheims, where he piloted a Wright machine.

The idea has aroused some interest in army circles and three officers of the medical corps have been detailed to act as judges.

These officers are Maj. Charles Lynch and Maj. Charles E. Reynolds and Capt. Howard H. Bailey.

### FIRST AID TO INJURED.

To be Inter-Company Military Competition in its Application.

Washington, Sept. 8.—Under the auspices of the National Red Cross the is to be an inter-company military competition in the application of first aid to the injured at Wilkesbarre, Pa., Oct. 2, next.

The idea has aroused some interest in army circles and three officers of the medical corps have been detailed to act as judges.

These officers are Maj. Charles Lynch and Maj. Charles E. Reynolds and Capt. Howard H. Bailey.

### RAT CLUBS PROPOSED.

Denver, Sept. 8.—"Rat clubs" will be proposed by Wilbur F. Cannon, state food commissioner, as a means of eradicating rodent pests and thus prevent spread of disease. The suggestion will be made to the state federation of women's clubs at its meeting in Leadville this week. Commissioner Cannon's opinion is that prizes should be given for the "rat club" making the best showing in exterminating the rodents.

### TURKISH GOVERNMENT INVITES BIDS FOR BONDS.

Washington, Sept. 7.—The Turkish government has invited bids for \$20,000,000 bonds bearing 4 per cent interest, with 1 per cent for an amortization fund.

The imperial Ottoman embassy in Washington today announced officially that on the strength of article 36 of the financial law for the current fiscal year the imperial Ottoman ministry of finance has decided to contract a loan of 2,000,000 Turkish pounds (approximately \$20,000,000); the rate of interest being 4 per cent and the rate of amortization 1 per cent.

### AN ELIXIR OF LIFE.

Hungarian Scientist Claims to be Able To Restore Life After Death.

South Norwalk, Conn., Sept. 8.—Thaddeus Tietze, a Hungarian scientist, who has spent nearly his entire life in an effort to discover an elixir that will restore life to a human being any time within several hours of an unnatural death, claims to have accomplished his

ambition and is ready to submit himself as a patient for the test.

So confident is Tietze that he asserts that he is willing to give himself to any death save one that removes a part, or even such as such as vitriol that eats away the flesh. The mere removal of the blood from the body until respiration stops, suffocation, drowning and like means of ending life have no terror for him, yet he has not been able to find a subject willing to submit himself to a convincing experiment.

### A BURGLAR IN TOWN.

### DECLARES PEONAGE EXISTS IN MINNESOTA.

Minneapolis, Minn., Sept. 8.—That a system of peonage and white slavery labor exists in Minnesota, so pronounced that it may involve the federal government in trouble with Russia, is the charge made by John Clifton Elder, of the United States immigration department in a letter.

Mr. Elder charges that foreigners are kicked and beaten if they attempt to leave their work and in some cases the machinery of the law is used to detain these laborers.

### WOMAN ASKED PROTECTION SHOT HER PRETEXTRESS.

Long Beach, Cal., Sept. 8.—Bettie Becker, a 16-year-old girl, was shot and probably fatally wounded by Mrs. Mary Hustage, an elderly woman, who had begged the protection of the girl and her father after leaving a suburban car. Mrs. Hustage, who is supposed to be insane, drew a revolver while the little party was proceeding along a darkened street and fired upon the girl. The woman then shot three times at Andrew Becker, the girl's father, but none of the bullets took effect and he finally succeeded in wresting the revolver from her grasp.

The girl was hurried to a hospital and Mrs. Hustage taken to the county jail, where she told a rambling story of having been choked and assaulted by her companions.
